NeoTOP 1604
ALWAYS ADAPTING TO YOUR REQUIREMENTS.

COMPLIANCE IN PACKAGING DESIGN

NeoTOP 1604
Modular and extendable packaging system, so you're not stuck with one implementation; enabling flexible and efficient production.

Patient
- Clear product overview thanks to top opening
- Patient guidance
- Products and leaflets are easily accessible
- Easily re-closable

Production
- Lower total cost of package TCP
- Safe process (100% verification after loading)
- Lower total cost of ownership TCO
- Flexible platform
- Quick format changeover

Logistics
- Flat mono-material (cardboard) blanks (inbound)
- Compact dimensions (outbound)
- Product protection
- Late stage customization

Marketing
- Flat cardboard blanks printable on both sides
- Brand recognition
- Sustainability (no plastic)

Regulatory
- Tamper evident closing
- Security options
- T & T

SPEED UP mid-size and large lot production up to 16 mio packs per year

1. CAPTAIN WRITING MODULE
The operator to the flat blanks - partitions and setter - are positioned for high visibility and are accessed from outside. They can be filled up by operators. The flat blanks are erected and glued into cartons and placed on a vacuum conveyor. The correct shape of the pack is checked and defective packs are ejected. Carton erection and partition forming are active, servomotor driven processes.

2. PRODUCT INSERTION MODULE
Products are laid in automatically. Dividella offers a wide range of product feeders that ensure gentle handling and safe loading of the product. Format changes are performed quickly, easily and using no tools. The change parts are pinned. No fine adjustment is required after a format change.

3. CARTON CLOSING MODULE
Other infeeding functions such as leaflet or booklet insertion can also be accomplished on this module as well. Conform to Directive 2011/62/EU cartons can be closed in various ways, using hotmelt, fugitive glue or labels, with or without tamper-evidence - see above examples - and finally, packs which have not been confirmed as correct at all stations are ejected.

4. CAPTAIN CLEANING MODULE
Other cleaning functions such as cleaning in contact with the operator can be accomplished on this module as well. The modules can be'sanitized, vacuum quickly, using technical, higher grade or Dubai, with or without transport units - see above examples - and finally, packs which have not been cleaned are cleaned at all stations accepted.
